

Influenza-Like Illness (ILI) Activity, 2019 to Present

New Mexico Department of Health (NMDOH) is collaborating with 21 ILI sentinel sites and 30 syndromic surveillance sites* for the 2022-2023 season. Sites report weekly on the number of patients that present to their facility with influenza-like illness (ILI). That number is then divided by the total number of patients seen for any reason, resulting in percent of ILI activity. ILI is defined as fever of greater than or equal to 100° F and cough and/or sore throat.

New Mexico and U.S. ILI Activity, 2019 to Present

% ILI, NM, Week 2 Jan 08-Jan 14, 2023 (Current Week)	% ILI, NM, Week 1 Jan 01-Jan 07, 2023 (Last Week)	% ILI, US, Week 2 Jan 08-Jan 14, 2023 (Current Week)
4.7%	7.9%	3.0%
