## **Building bridges across multidisciplinary settings to support infants and toddlers impacted by prenatal substance exposure and adversity.**

This summit will bring together an array of national experts and local stakeholders that work directly with and/or on behalf of infants and young children who have been prenatally exposed to substances, including alcohol, and who are at high-risk for experiencing co-occurring attachment disruption, adversity, toxic stress and trauma.

### **SPEAKERS:**

**Cynthia Bearer, MD, PhD** - *University of Maryland*

- Interventional strategies in the NICU setting
- Families impacted by fetal substance exposure

**Devi Miron Murphy, PhD** - *Tulane University*

- Evidence-informed infant and early childhood dyadic trauma assessment
- Treatment approaches

### **PANEL DISCUSSIONS INCLUDE:**

- National and local experts
- State and community stakeholders
- Families
- Participant discussion
- Reflection and recommendations

E-registration will be available at [goto.unm.edu/child-well-being-symposium](http://goto.unm.edu/child-well-being-symposium), beginning **February 18, 2019**.
